Your Bruno Beginnings
FOR ENTERING STUDENTS AND THEIR FAMILIES
2022
Dear Entering Brown Student,

Today marks the start of your Brown experience. You have embarked on a daring educational adventure, and I invite you to dive in. You are now part of a truly extraordinary community of thinkers, creators and doers on this historic campus. I could not be happier that you have chosen Brown as your home away from home. Truly, these may well be some of the most transformational years of your lives.

As you settle in, you will soon see that Brown is a place where students study what they love and find boundless educational opportunities. We are enormously proud of the academic freedom students enjoy here at Brown. It will, I am sure, inspire you to take full advantage of the Open Curriculum and explore our many interdisciplinary centers and institutes in charting your own scholarly journey.

You come here as talented, accomplished, intellectually curious young leaders and change-makers. And you arrive at a time when the University is realizing bold ambitions — keen to innovate, advance knowledge in the world and shape consequential lives. What comes next is very exciting.

You will come to cherish the collaborative spirit you find here on College Hill. Brown's size, scale and diversity foster an uncommon camaraderie and joy in working across differences in background, life experiences and perspectives. Opportunities for learning appear at every turn, in many forms. These range from partnering with graduate students on cutting-edge research to participation in campus organizations, conversations with professors and community engagement in and around the dynamic city of Providence.

You will quickly appreciate the deep commitment Brown students share for putting their education to work to make an impact in their communities, in their home countries and around the world.

So, embrace this experience. Explore academic and extracurricular pursuits outside your comfort zone, and participate fully in the life of this remarkable University. We are thrilled to have you with us. We look forward to supporting you along your educational journey and celebrating your accomplishments in the months and years to come.

Christina H. Paxson
President
Brown University

## Next Steps
THE OPEN CURRICULUM

Most students say they chose Brown because of the freedom afforded by the Open Curriculum. Now that you have been admitted to Brown, we would like to provide you with some background on its philosophy and tips for making the most of your Brown education, especially during your first year at Brown.

The “New Curriculum” was adopted by the faculty in 1969, after a year of collaborative study and debate — led by approximately 80 students and 15 faculty — about the need for educational reform. The key components remain in place to this day: no distribution requirements mandating coursework in particular fields of study, a simplified grading system without grade point averages and class rankings, grade options of satisfactory/no credit or a letter grade, and an invitation to “concentrate” rather than “major” in broad, interdisciplinary fields of study. Additionally, the faculty institutionalized the opportunity for you to design your own independent concentrations and independent studies for academic credit. At the core of these features is a student-centered philosophy that espouses that each student should be an active participant in shaping their education.
Liberal Learning and Core Competencies

While the Open Curriculum is a half-century old, it is rooted in a long Western tradition of learning called the liberal arts, which encourages breadth of education across multiple domains as well as depth in a single area. Our courses are taught by scholars who are dedicated to the production of knowledge in the arts, humanities, life sciences, physical sciences and social sciences.

You are not required to study in all of these areas; however, our enrollment data reveal that Brown undergraduates tend to distribute their courses across the curriculum, choosing classes in a wide array of fields. Consider Brown’s liberal learning goals as you begin to construct your course of study.

Work on your speaking and writing

Writing, speaking and thinking are interdependent. Developing a command of one of them means sharpening another. Seek out courses, both in and out of your concentration, that will help you improve your ability to communicate in English as well as in another language. Whether you concentrate in the sciences, the social sciences or the humanities, your ability to speak and write clearly will help you succeed in your college coursework and in your life after Brown. Seek out courses that carry the University’s “writing designation.” In these courses, faculty will provide feedback, not just on your ideas, but on your prose as well.

Understand differences among cultures

Your future success will also depend on your ability to live and work in a global context. And that means knowing as much about other cultures as you do about your own. Brown offers a wealth of courses and international experiences that will help you develop a more self-conscious and expansive sense of how different cultural groups define themselves through social, aesthetic and political practices. Working with international peers and instructors on the Brown campus can make you equally aware of the challenges of communicating across linguistic and cultural barriers. Fluency in a second language, coupled with time spent studying, interning or working abroad, will sharpen your sensitivities, enlarge your sense of geography and prepare you for leadership in an increasingly interconnected world.

Analyze how power shapes human behavior

Knowing how individuals are socialized and express their identities can lead to deeper insights about the nature of human organization, the sources of political power and authority and the distribution of resources. Learn to critically analyze the ways categories of differentiation, such as ability, citizenship, class, gender, race, religion, sexual orientation and others, have been produced by and through hierarchies of power. Doing so can help you think more deeply not only about yourself but also about the social institutions that serve to define our very notions of self and other, together with the policies and institutions that maintain them. Analyze the ways in which structures of knowledge in your field have been embedded in historical formations such as racism and colonialism. Perhaps most importantly, demonstrate the capacity to be transformed — in knowledge, attitudes and behavior — by engaging with multiple points of view, experiences, and worldviews. Look for courses with the “Race, Power and Privilege” designation.

Learn what it means to study the past

Understanding how people and institutions have changed over time is fundamental to a liberal education. Just as you should expand your cultural breadth, so should you develop your historical depth. Coming to terms with history involves far more than learning names and dates and events. It means understanding the problematic nature of evidence and the distance that separates the present from the past. It also means thinking critically about how histories themselves are written and who has the power to write them.

Experience scientific inquiry

Evidence is also a central aspect of scientific inquiry. The interpretation of natural or material phenomena requires a unique combination of observation, creativity and critical judgment that hones your inductive reasoning, sharpens your ability to ask questions and encourages experimental thinking. Understanding the nature of scientific findings, along with their ethical, political and social implications, is also critical to an informed citizenry. As you plan your course of study, look for opportunities to experience direct, hands-on research.
Studying written texts, interpreting graphs and evaluating systems and codes are all forms of analysis that belong to the more general category of “reading.” Learning how to read closely makes you aware of the complex nature of expression itself, where the mode of expression is as important as what is expressed. Gaining experience with close reading — across many genres — may be one of the most important things you will learn to do in your time at Brown.

Symbolic languages make it possible to think abstractly across many disciplines. Linguistics, philosophy, computer science, mathematics and even music are among the disciplines that have developed symbolic systems to make theoretical assertions about their objects of study or to imagine alternate realities. Courses in these areas will teach you what it means to conceptualize systems and structures that have the potential to reframe our notions of time and space.

Courses in the visual and performing arts, music and literature will deepen your understanding of many kinds of expressive media, past and present, and the kinds of realities they aim to represent. Developing your own creative abilities in one or more art forms will deepen your self-understanding and enhance your ability to appreciate the work of others.

Learning never happens in isolation, and the quality of your experience at Brown will depend on your ability to collaborate fully with others: with teachers, with fellow students, with advisors and mentors of all kinds. The advising partnership is thus a necessary complement to the Brown curriculum. Be as bold in seeking guidance as you are in pursuing your educational aspirations. Begin developing your network of collaborators early, and work to stay connected with those teachers, advisors and peers who have meant the most to you. Visit office hours not just to expand your understanding of course material but also to get to know your teachers as people. Reach out to faculty at other events — or over lunch or coffee. Work on research projects or independent studies with professors whose interests match your own. And make use of the many offices and centers that can support you in reaching your academic goals. By taking charge of your education in this way, you will enrich your teachers’ and mentors’ understanding as much as you will expand your own capacity to learn, not just here at Brown but in many other environments and for many years to come.

Engage with your communities

Your general education at Brown will be enriched by the many kinds of work you do beyond the classroom. Real-world experiences anchor intellectual pursuits in practical knowledge and help you develop a sense of social and global responsibility. Internships, public service, and other community activities both on campus and beyond Brown have the potential to strengthen your core programs; they can also strengthen your moral core, by showing you how and why your liberal education matters.

Looking beyond the horizon of your immediate interests and sharing your knowledge and talents with others can expand intellectual and ethical capacities that will make it possible for you to lead a full and engaged life, or, in the words of the Brown charter, “a life of usefulness and reputation.”
Degree Requirements

Brown awards two baccalaureate degrees, the bachelor of arts (A.B.) and the bachelor of science (Sc.B.). There are also options to pursue a combined A.B.-Sc.B. or a five-year bachelor’s and master’s degree. In order to graduate with a Brown baccalaureate degree, you must meet a set of requirements within your chosen concentration and across your College education. These requirements are designed to ensure your studies include both the academic rigor and the opportunities for individual growth expected of a high-impact liberal arts education, and include:

1. **Earn 30 Course Credits**

   In order to graduate with a Brown A.B. or Sc.B., you must successfully complete at least 30 full-credit courses, of which at least 15 course credits must be earned at Brown. Summer or winter courses at Brown, as well as approved study at another institution, may also count toward this degree requirement.

2. **Complete a Concentration (major)**

   Brown offers close to 80 standard concentrations that lead to either the Sc.B. or the A.B. You must complete at least one concentration in order to graduate from Brown. In keeping with the philosophy of the Open Curriculum, you, with support from a faculty mentor, may apply to complete an independent concentration of your own design if standard departmental offerings do not match your interests. Brown does not offer minors.

3. **Demonstrate Competence in Writing**

   Learning to write well occurs over time. For this reason, you must work on your writing at least twice: once during the first half of your college experience and once during the second half.

4. **Fulfill the Enrollment Requirement**

   You are required to accumulate eight semesters, or 32 units, of enrollment credits in order to graduate, of which a minimum of four full-time semesters of enrollment must be on campus at Brown.

LEARN MORE >> brown.edu/academics/college/degree
To help you take advantage of the Open Curriculum, Brown provides a strong advising community. The University pairs new students with two advising partners: an academic advisor who is a Brown faculty member or administrator, and a student peer advisor. Academic advisors provide long-term institutional perspective on educational options while informing, encouraging and, occasionally, challenging you. Meiklejohn and Transfer and Resumed Undergraduate Education (TRUE) peer advisors provide an experienced perspective on the ins and outs of course registration, course selection, prerequisites and the like.

You will meet with your academic advisors throughout your first two years of study or until you declare a concentration, at which point you will then have a concentration advisor. In your meetings, you are expected to present your academic plans, articulate reasons for your choices and remain open to suggestions. Your advisors will serve as supportive critics, asking probing questions and suggesting resources and opportunities.
Academic Deans | brown.edu/college

Academic deans are available to discuss a wide range of topics that intersect with students’ academic lives, including development of intellectual focus, co-curricular opportunities, leavetaking, and academic difficulty.

CareerLAB | brown.edu/careerlab

The Center for Careers and Life After Brown (CareerLAB) can help you refine a resume, write a cover letter, prepare for a job interview and find jobs and internships. CareerLAB, in collaboration with the College, supports students and recent alumni interested in education and careers in the Health Professions, Law and Business through dedicated web resources, publications, workshops, programs, group and individual advising.

Curricular Resource Center | brown.edu/go/crc

The Curricular Resource Center for Peer Advising is a place where staff and student advisors facilitate information sessions, community-building events, and individual meetings for advising about navigating and accessing the Open Curriculum, finding and fostering academic communities, and seeing pathways for deep engagement with the learning process and high-impact learning opportunities.
Departmental Undergraduate Groups (DUGs) | go.brown.edu/DUG

A DUG is a group of student concentrators who work with the faculty in their concentration to advise pre-concentrators and establish a sense of community.

Matched Advising Program | go.brown.edu/matched-advising

The Matched Advising Program pairs sophomore students with junior and senior mentors for one-on-one and group advising, providing a support system for navigating concentration declarations, research opportunities, internships and more.

Meiklejohn Peer Advising | go.brown.edu/meiklejohn

Meiklejohn peer advisors are sophomores, juniors and seniors trained to provide first-year students with advice and counsel on the academic, extracurricular and social transitions that come with attending college for the first time.

Pre-Professional Advising

Various advising resources are available to assist current Brown undergraduates and recent alumni interested in pursuing education and careers in business, health and medicine, and law.

- Business Careers Advising | brown.edu/go/businesscareers
- Health Careers Advising | brown.edu/go/healthcareers
- Pre-Law Advising | brown.edu/go/lawcareer
Online Advising Tools

1stYear@Brown | canvas.brown.edu

1stYear@Brown is an interactive summer workshop that provides details about Brown’s mission, the University’s advising culture, and how to develop college learning capacities such as self-reflection.

Advising Sidekick (ASK) | ask.brown.edu

ASK is an online portal where your 1stYear@Brown assignments are uploaded; it is also the platform where you will declare your concentration(s). In addition, the site lists the various advising sessions and events offered across campus throughout the year.

Courses@Brown | cab.brown.edu

Brown’s online course catalog, Courses@Brown, allows you to view course descriptions, enrollments, meeting times, instructors and often the class syllabus. An optional “Courses I Can Take” feature allows you to view only those courses for which you immediately qualify.

Undergraduate Concentrations | brown.edu/go/concentrations

This website provides a summary of every concentration at Brown, its requirements and its advisors. Dipping into a few of the descriptions can help you investigate potential pathways and imagine how your academic journey might take shape.

Bruno Beginnings | orientation.brown.wisr.io

Bruno Beginnings is a platform designed to facilitate your transition to college — connecting you to events, discussions and peers to promote community building.
Academic life at Brown, at times, can be demanding. Students report that the intensity is less about competition and more about needing to meet their own high standards. Brown provides an abundance of services to support you in achieving academic objectives.

**Academic Support Services | brown.edu/go/academic-support**

Academic Support Services supplements the resources provided by course instructors and teaching assistants. Peer academic coaches conduct workshops and meet individually with students to help develop successful study habits and learning strategies. Workshop topics include time management, note taking, exam preparation and other study skills.
Academic Tutoring Program | brown.edu/tutoring

The Academic Tutoring Program provides no-cost, small group tutoring support for select introductory STEM and language courses. Tutors meet with students weekly to review concepts taught in class and share tips and learning strategies that promote deeper learning.

English Language Support | brown.edu/go/english-support

Brown welcomes students from around the country and the world, and their diverse perspectives enrich our community. For students whose primary language is not English, English Language Support offers individual and group language programs on a wide range of topics, including writing, listening, speaking and U.S. academic culture.

Math Resource Center | brown.edu/go/mrc

The Math Resource Center provides academic support for students taking introductory mathematics courses. The center is staffed by graduate and undergraduate students who help students on an individual or small group basis. Any student enrolled in introductory math courses may come in for help related to their classes. Many students use the center as a meeting place for small study groups.

Student Accessibility Services | brown.edu/sas

Student Accessibility Services (SAS) works with students who may need accommodations related to an area of disability (including mental health, medical conditions and temporary injuries). SAS coordinates and facilitates services for students across campus.

Swearer Center | brown.edu/academics/college/swearer

The Swearer Center for Public Service is a community of scholars, students, practitioners and community members who work together creatively to build on community strengths and address community challenges. This work yields transformative learning and positive sustainable change through collective action.

Writing Center | brown.edu/go/thewritingcenter

The Writing Center provides individual and group writing support free of charge to all members of the Brown community. Writing associates assist students at any stage of the writing process, from finding a topic through drafting, revising and final editing. Typical assignments include academic essays, lab reports and research projects, as well as professional materials for fellowships, internships and the job market.
Collaborative Research and Scholarly Experiences | brown.edu/go/coex

Collaborative Research and Scholarly Experiences (COEX) engage groups of students in addressing a research question or knowledge gap of interest to scholarly communities. These courses make research and scholarly experiences more inclusive and accessible to students, and they are designed to complement the traditional model of 1:1 faculty-student mentorships or independent studies.

Independent Study | go.brown.edu/IS

Consistent with its commitment to student-directed learning, Brown offers a variety of independent study opportunities. Many departments offer independent research or reading courses. You may also initiate, design and execute independent study projects with the help of faculty advisors. Group Independent Study Projects allow students and faculty to develop credit-bearing courses that are not a regular part of the Brown curriculum. You also may choose to design your own independent concentrations if standard concentration offerings do not suit your interests.
The Leadership Alliance | theleadershipalliance.org

The Leadership Alliance endeavors to develop historically underrepresented students into outstanding leaders and role models in academia, business and the public sector. This consortium of 36 member institutions and private industry places undergraduates in paid, summer-long research opportunities at 22 institutions across the country in the biomedical sciences, engineering, applied mathematics, physical sciences, and humanities and social sciences.

Mellon Mays Undergraduate Fellowships | brown.edu/go/mmuf

Mellon Mays Undergraduate Fellowships encourage individuals from historically underrepresented racial and ethnic groups, as well as students who may not come from traditional minority groups but have otherwise demonstrated a commitment to eradicating racial disparities in higher education, to pursue doctoral degrees and to join college faculties. Each fellow conducts a long-term research project under the guidance of a faculty mentor. Students apply for the program in their sophomore year. Fellows who remain in good standing receive a stipend for each of the two summers of their fellowship and for each semester of their junior and senior years. Upon enrollment in an eligible graduate program, fellows receive additional support.

RAB Grants | brown.edu/go/rab

Research at Brown (RAB) grants support student-initiated research projects and travel to present their research at professional conferences. You may submit proposals for up to $500 of funding at any time during the academic semester.

Brown-Tougaloo Partnership | tougaloo.brown.edu

On May 18, 1964 — the 10th anniversary of the Supreme Court’s landmark Brown v. Board of Education decision — Brown University and Tougaloo College, a historically Black college in Jackson, Miss., developed a “cooperative agreement.” With the issues of Civil Rights confronting both institutions, they entered a relationship that has remained a unique collaborative venture after more than 50 years — one that engages the culture, academia and histories of these two distinctive institutions. One of the partnership’s signature programs is the Semester Exchange Program, which offers Brown and Tougaloo undergraduates the opportunity to study for a semester at the partner institution, and immerse themselves fully in academic and campus life and the overall residential college experience at the partner institution.

Rhode Island School of Design | risd.brown.edu

Brown students have the option of taking courses at the Rhode Island School of Design (RISD). Up to four RISD classes may count toward degree requirements at Brown. During the fall, winter and spring, you may enroll at RISD as part of your Brown tuition. During the summer, you pay RISD directly for a class.
Study Abroad | brown.edu/oip

Brown University offers undergraduate students the opportunity to study abroad through a wide variety of academic programs, some offered directly by the University and others sponsored by institutions that Brown approves for academic credit. Hundreds of Brown students study outside of the U.S. each year and are transformed by their experiences in the most positive and profound ways.

Study abroad advisors work closely with students to consider and select one of Brown’s many study abroad program offerings. For decades, Brown has offered its own programs in France, Italy and Germany. As the administering lead institution of the Consortium for Advanced Studies Abroad, Brown also provides students with study opportunities in Argentina, Brazil, Chile, Cuba, Ireland and Spain. Additionally, the University partners with leading world universities in Japan and the United Kingdom. In addition, you may consider more than 70 approved programs in other countries.

It’s never too early to begin thinking about study abroad. Brown encourages you to plan ahead on how to incorporate study abroad into your academic planning.

Study Away | go.brown.edu/study-away

Brown students sometimes choose to study at another college or university while they are matriculated at Brown. Subject to transfer credit guidelines, you may seek transfer credit for courses from another institution when you need it to satisfy Brown degree requirements, with prior approval of the appropriate academic departments and a degree completion dean.
Summer and Winter Study at Brown | summersession.brown.edu, wintersession.brown.edu

Brown’s sessions in the summer and winter allow you to earn up to four course credits toward your Brown degree. Benefits of summer or winter study include smaller classes, more opportunity for close interaction with faculty, and time to focus on a limited set of objectives. Because the schedule of study is very intense, you may take a maximum of two courses in a given summer and one course during a winter. No more than four summer and winter courses, in any combination, may be counted toward your Brown degree.

Undergraduate Research | go.brown.edu/undergraduate-research

Brown sponsors a number of fellowship and grant programs that support student research. Many of these programs are specifically designed to facilitate faculty-student research collaborations, and others directly connect students with alumni or non-Brown internships.

SPRINT (Summer/Semester Projects for Research, Internship and Teaching) serves as the application platform for all College-funded experiential learning opportunities.
You come to Brown expecting an outstanding education, in courses taught by world-class faculty. What you should also be prepared for is an extraordinarily diverse and exciting campus life experience. A remarkable array of student activities occur outside of the classroom at Brown; these activities complement your formal education and are a key element of Brown’s unique culture of learning.

Brown’s requirement that you live on campus for a minimum of six semesters, unless you entered as a Resumed Undergraduate Education (RUE) student, reflects the fact that residential college life is a critical component of the Brown educational experience. When you live on campus, you are much more likely to participate in student organizations and projects, cultural events and social gatherings, and civic engagement activities. Students who live on campus are also more likely to turn to one another for advice on academic choices, social opportunities and personal issues.

LEARN MORE >> brown.edu/go/housing-policy
Brown Card | card.brown.edu

The Brown University identification card, or Brown Card, is used to check out library materials, access meal plans, open secure doors in campus buildings and use laundry facilities. It can also be used to ride on any Rhode Island Public Transit Authority (RIPTA) bus or trolley to go anywhere in the state at no charge.

The Brown Card may also be used as an on-campus debit card with a Bear Bucks Account, a University-maintained debit account that allows you to make purchases without cash.

You can also use the Brown Card to charge books, technology, supplies and general merchandise at the Brown Bookstore. The charge account is separate from the Bear Bucks Account.

Meals on Campus | dining.brown.edu/meal-plans

All entering students are enrolled in a 20-meals-per-week plan. All non-transfer and non-RUE first-year students must be on a full meal plan.

Options run the gamut from traditional “all-you-care-to-eat” service to à la carte dining at retail cafes and casual restaurants around campus. Each meal plan also comes with FlexPlus Points that can be used to purchase food at campus snack bars, coffee carts and convenience stores.

A team of chefs and dietitians plans menus and advises students with special dietary needs. Kosher and halal meal plan options enable observant Jewish and Muslim students to adhere to dietary laws.
Students living in the residence halls at Brown benefit from intentional programs and services as well as myriad interpersonal interactions with members of the Brown community. You’ll receive direct guidance and support from your interconnected community of peer scholars as well as Community Coordinators who live in the residence halls and interact with faculty and deans to create a vibrant living and learning environment. Living on campus augments your overall educational experience at Brown. For these reasons, first-years, sophomores and juniors, including incoming non-RUE transfers, live on campus.

First-year students live in residence halls with roommates. Efforts are made to assign incoming transfer students housing in residence halls with students of similar semester levels. After their first year, students may live in a variety of settings including single rooms, suite-style living or program, theme and Greek housing. RUE students may choose any of these options on campus, or may live off campus.

In most residence halls, students are housed on the same floor without regard to their sex or gender. You may request single-gender housing, quiet housing, substance-free housing and other options when completing the new student housing questionnaire.

LEARN MORE >> reslife.brown.edu
Community Coordinators

Community Coordinators are carefully selected and extensively trained upper-division leaders (sophomores, juniors or seniors) who work as paraprofessionals for the Office of Residential Life. Their primary role is to support students individually and collectively while building a vibrant, healthy and positive community living experience.

Community Coordinators host various fun activities throughout the year to allow you to meet and interact with your neighbors, learn about campus resources and discuss ways to navigate the social, emotional and academic challenges of the residential experience.

Roommate Selection

We recognize that students function most effectively when they are paired with roommates whose habits are reasonably similar to their own. The new student housing questionnaire is designed to help Residential Life staff match you with roommates who have similar patterns of study, sleep and recreation. Information regarding how to access the new student housing questionnaire will be sent in the coming months.

The Residential Life staff works hard to foster a supportive and inclusive living environment for all. To promote this kind of environment, Brown will not accept specific roommate and/or hall requests, nor will we make room assignment changes based on race, national origin, color, religion, sexual orientation or other identities. All students are expected to be caring and respectful of others and to bring an enthusiasm to interact with all.

Student Support Services  |  brown.edu/student-support

The Student Support Services staff is available to assist you with a wide range of issues and concerns (personal, health, family, etc.). Student Support deans are available to consult with about your personal questions/concerns, provide a sounding board to explore options and help to connect you to the right set of resources, allowing you to succeed and thrive in your academic pursuits. A 24-hour administrator-on-call is also available for students with personal or family emergencies.

Department of Public Safety  |  brown.edu/publicsafety

Brown University's Department of Public Safety (DPS) is a nationally accredited police agency responsible for the safety and security of more than 10,000 students, faculty, staff and Brown guests. DPS is available to all 24/7, 365 days a year, and sponsors a comprehensive set of programs and community outreach initiatives to ensure the safety of the entire Brown community.
Brown is committed to building a diverse and inclusive community, in which a wide range of identities, histories, experiences, backgrounds and beliefs are valued and respected. At Brown, this commitment to equity and inclusion is embedded in everything that we do inside and outside of the classroom.

Brown is working to transform the policies, structures and practices that have led to the exclusion — rather than the meaningful inclusion — of some members of the community. The University Diversity and Inclusion Action Plan (DIAP) was created in 2016. Every academic and administrative unit, including the Division of Campus Life, has been called upon to submit an approved Departmental Diversity and Inclusion Action Plan (DDIAP) aligned with the University’s overall set of concrete actions. As an example, in the past four years, the campus life division has hired many more professional staff members of color, which is helping students to feel more represented and supported.

Professional and student staff of many campus centers work together to provide resources, support and a home away from home for historically underrepresented students in higher education as well as create intellectual discourses critical to the educational experiences of the entire Brown community.

**Brown Center for Students of Color | brown.edu/bcsc**

The Brown Center for Students of Color (BCSC) serves as a gathering place for communities of color on campus, hosting events and programs that build and affirm community. The center provides a place and space for students of color to explore their identity, develop their leadership skills and build a sense of community in a welcoming and supportive environment.
Global Brown | brown.edu/globalbrowncenter

The Global Brown Center for International Students provides support for students who self-identify as international students, regardless of visa status, through ongoing programmatic efforts such as the International Mentoring Program and International Orientation, cultural events, community-building initiatives and advocacy.

Support for international students is also available through Global Brown, a network of several offices that works to coordinate the broad range of community and support services. Students studying on a visa will work with the Office of International Student and Scholar Services, which handles all matters related to immigration and student visa concerns.

LGBTQ Center | brown.edu/lgbtq

Brown's LGBTQ Center provides a comprehensive range of education, information and advocacy services for lesbian, gay, bisexual, trans, queer and questioning students. The LGBTQ Center works closely with other identity-based centers on campus to counsel individual students about their aspirations and concerns, advise student leaders and help organize programming. The LGBTQ Center staff also advises various LGBTQ+ student groups, including the Queer Alliance, an undergraduate group of LGBTQ+ students and allies that serves as a hub of LGBTQ+ organizing on campus.

Sarah Doyle Center for Women and Gender | brown.edu/sdwc

The Sarah Doyle Center for Women and Gender provides a dynamic environment for exploring issues of gender, including the intersections of gender and gender identity with race, ethnicity, economic class, sexuality, dis/ability, age and geography. The center’s staff works closely with the LGBTQ Center. All members of the Brown community are welcome to visit the center and to make use of its resources. The center provides meeting spaces, an art gallery and a library, and also maintains contact information for the gender and sexuality organizations at Brown and in the Providence area.

Office of the Chaplains and Religious Life | brown.edu/ocrl

The Office of the Chaplains and Religious Life leads Brown’s work in religious diversity and strives to enhance religious literacy within the University community. The office supports more than 18 traditions, including the Brown-RISD Catholic community, Brown-RISD Hillel, Brown Muslim Students’ Association, Protestant groups (i.e., ecumenical, multiple evangelical, Pentecostal, African American and Episcopal), Quaker, Christian Scientist, Orthodox Christian, Unitarian, Baha’i, Hindu, Buddhist, yoga and mindfulness, queer faith and contemplative practices.
Office of Military-Affiliated Students | brown.edu/veterans

The Office of Military-Affiliated Students provides advice, advocacy, information and support for students who have served, are serving or are interested in serving in the U.S. military, as well as offers support to student veterans of other nations. Brown students may participate in Reserve Officers’ Training Corps (ROTC) for the U.S. Army, Navy, Marine Corps and Air Force. Programs are offered through partnerships with nearby host universities; transportation is provided.

Undocumented, First-Generation College and Low-Income Student Center | brown.edu/ufli

The Undocumented, First-Generation College and Low-Income Student (U-FLi) Center, located on the fifth floor of the Sciences Library, is a communal, learning and advocacy support space for undocumented, low-income and/or first-generation college students at Brown. The First-Generation College and Low-Income Scholars Program — a cohort-based transition experience program — provides first-year students with an opportunity to connect more closely with U-FLi Center staff, develop meaningful relationships with other students, and learn about the various resources available at Brown.

Office of Student Conduct and Community Standards | brown.edu/offices/student-conduct/about

The Office of Student Conduct and Community Standards investigates and adjudicates alleged violations of the Code of Student Conduct. Students who have been harmed or who have witnessed harm are encouraged to report these incidents and speak with deans.
Brown University Health and Wellness aims to holistically engage you in collaborative and compassionate care to support your self-discovery, intellectual growth and lifelong wellbeing. Health and Wellness encompasses five departments: Brown Emergency Medical Services, BWell Health Promotion, Counseling and Psychological Services, Health Services, and Student Accessibility Services.

**BWell | brown.edu/bwell**

BWell Health Promotion offers a wide variety of educational services for topics such as alcohol/drug use, nutrition/eating concerns, men/women’s health, and sexual health, and maintains an extensive resource center and website on a variety of topics.

**Counseling and Psychological Services | brown.edu/caps**

Counseling and Psychological Services (CAPS) takes a goal-focused and collaborative approach to mental health services to assist students in improving their lives. The diverse CAPS staff offers a range of psychological treatment and prevention services in an inclusive, compassionate, affirming and socially just environment. Services are available 24/7 for urgent needs.

**Health Services | brown.edu/health**

Health Services provides wellness services and medical care to Brown students. You may make appointments with staff physicians, nurse practitioners, physician assistants, nutritionists and nurses; same-day appointments are available if you call ahead. If you are ill or have medical questions, you should contact Health Services for advice.
Pharmacy | go.brown.edu/pharmacy

The Health Services pharmacy carries prescription medications and over-the-counter products. Purchases are available for pickup at the pharmacy or can be delivered to your campus box.

Required Health-Related Documentation | go.brown.edu/health/services

All incoming students are required to complete medical forms before arriving on campus. Instructions for completing these forms and uploading required documents are featured on the Undergraduate Student Health Requirements page on the Health Services website.

Health Insurance | go.brown.edu/insurance

All Brown students must have separate health insurance to cover services not included in the health fee (such as lab, x-ray, pharmacy and hospital expenses). You will be automatically enrolled in the Brown Student Health Insurance Plan, specifically designed to complement the services provided by the Health and Wellness departments. However, you may waive enrollment in the Student Health Insurance Plan if you are covered by a comparable health insurance plan.

When evaluating your plan, you must verify that your plan provides adequate coverage that is accessible in the Providence area. To decline coverage, you must complete an online waiver form by the deadline listed.

It is particularly important for international students to verify that their health insurance plan provides adequate coverage that is accessible in the Providence area before waiving the Student Health Insurance Plan.
ACTIVITIES AND LEADERSHIP

You will discover and create leadership opportunities throughout your undergraduate experience, both in and outside the classroom. Through participation in student organizations, club and varsity sports, or co-curricular programs — and in many cases, all three — you engage in mentorship and applied learning in the development of organizing and leadership skills.

Student Organizations | brown.edu/sao

More than 500 student organizations thrive on Brown’s campus: academic and career-related organizations, cultural and spiritual groups, media and publications, performance and art groups, political and public service organizations — the list goes on. These student organizations extend learning beyond the classroom and provide students with a sense of community and shared purpose. They provide an arena for putting classroom learning into practice, and they enable you to contribute to the creation of Brown’s vibrant student culture.

The Student Activities Office supports you as you engage in identity and community building and leadership development through co-curricular involvement. Through advising, mentoring, and collaborating with student leaders, the office staff fosters skill building and critical thinking. The office also manages two performing arts facilities, a student-run coffee shop and the Stephen Robert ’62 Campus Center, which is the hub of campus life.
The Undergraduate Council of Students strives to actively advocate for student interests in all aspects of the University. Membership in the council is open to any undergraduate who has gathered the required number of signatures and attends two meetings. Officers are determined by campus elections each April. The Undergraduate Finance Board distributes student activities fee monies to more than 200 student organizations.
ATHLETICS AND RECREATION

Varsity Athletics | brownbears.com

At Brown, student-athletes compete on 34 varsity sports teams, and Brown teams routinely are among the nation’s leaders in NCAA honors for academic achievement.

Recreation | brownrec.com

Fitness

The Nelson Fitness Center is a state-of-the-art recreational fitness facility that features more than 85 cardio machines, 12,000 pounds of free weights, selectorized equipment, a functional training/stretch area and three fitness studios. Additionally we offer an Aquatics Center, indoor track and courts, indoor squash and tennis courts, and recreational ice time. The department offers more than 75 group fitness classes per week in the areas of aerobics, fitness and mind/body. Brown also offers tailored fitness training for individuals or groups.

Intramural and Club Sports

Brown’s Intramural Sports program offers structured recreational sport opportunities in a variety of team, dual, individual and special-event programs. Brown’s Club Sports program offers a higher level of competition than on-campus intramural sports, but without the time constraints required by varsity sports. Most club sport teams compete extensively in extramural competitions, and many hold memberships in athletic conferences.
FINANCIAL AID

The Office of Financial Aid partners with undergraduate students and their families to meet the cost of a Brown education. The office conducts outreach throughout the year to educate students on financial aid topics such as the annual financial aid application process, financial aid for the summer term or while abroad, and other aid-related topics. Financial Aid counselors are available to assist students and families with questions about any aspect of a student’s aid package.

Student Employment  | brown.edu/go/student-employment

Many students’ financial aid packages include federal work-study or campus employment. The amount of the award is based on a student working an average of 8-10 hours per week during the academic year. Income from work-study or campus employment may be used to meet personal expenses, to purchase books and to cover other educational costs. Because funds earned are paid directly to the student, this portion of the financial aid award will not show as a credit on the billing statement from the University.

Students apply for jobs based on their interests, skills and schedule. Students apply for positions in Workday — please visit the Student Employment website for more details.
Providence combines the friendliness of a small town with the culture and sophistication of a big city. With a thriving arts community, vibrant and diverse neighborhoods, and a renowned restaurant scene, Providence is an exciting place to call home.

College Hill, Brown’s home neighborhood, contains one of the nation’s more extensive and distinguished collections of historic architecture. Thayer Street offers restaurants, cafes, the Brown Bookstore and shopping geared toward students.

Transportation | brown.edu/transportation

A full range of transportation options makes it easy to get around Providence safely and efficiently. Brown provides day and nighttime shuttles around campus and all public transit bus trips (RIPTA) are free with a Brown Card.
